I am pursued Masters of Computer Application from Feroze Gandhi Institute of Engineering and Technology (Utter Pradesh). This collage is affiliated to APKT University. My expected year for completion of MCA is 2016. Earlier I had pursued Bachelor of Computer Application from RIT Mawana Khurd Meerut [CCSU].

In my MCA years so far, I have involved with various syllabus related subjects like Computer Network, Operating System, Discrete Mathematics and different languages and Operating Systems like Java, J2ee, C, C++, OOPS, Data Structure and Oracle Database,mysql Database etc.

Future Perspective:

I am completed my Industrial Training for final Semester now and improving my skills in Java, J2EE, SDLC, Oracle Database, MySQL, Eclipse, MyEclipse, NetBeans.

I am targeting to learn and explore as much as possible in Java, Advance Java language along with different IDEs and Databases.

I am a hard worker in respective to any kind of work and if that matches my interest then I will be 200% productive. My strong determination and 'never give up' attitude helps me to learn and enhance my development skills and also helps me to originate troubleshooting qualities as well.

I am looking to get an organization where I will get new and challenging work which will interests me and will utilize my capabilities and at the same time will give me opportunities to enhance mine skills as well, Technical and personal, both.

Taking new things positively, made me keen to remain open to learn new concepts and theories which in turn will, definitely, help me grow as a professional and better person too.

SKILL SET -

Applications Web Based and Desktop Applications Using Java,J2EE

Application based on Applets and AWT

Technologies/Application Servers/ Languages
